### ***Making a claim***

- If you claim, you need to ensure that the caller's attention is gained and not any other person.
- The last number called must be on the claiming ticket.
- The checker will verify numbers with the caller.
- If 2 or more valid claims are made, then the prize money will be divided equally.

### ***Respect to the caller & checker***

Please respect the caller and the checker(s). If you're having a bad day or are on a losing streak, then don't blame the caller. There is no way possible that they can influence the numbers that are being drawn. Be heard only if the caller is too fast, or their voice is not clear or too quiet. Remember to be courteous while making the requests.
